

The Explorers

Portable Dome Production Notes

Slides

There are 39 slides in plastic mounts in your kit. The slides are numbered 001 through 039. Please note in the script that there are a few places where you are told to add a blank slide. The purpose of this is to allow you to leave the projector on throughout the show when no image is called for in the script. If your projector will automatically go to black when a slot is empty, then simply leave a blank slot where the script says, "Insert a blank slide here". Otherwise, add a blank opaque slide in each spot listed below.

Below is a list of places to insert a blank slide or leave an empty slot in the tray:

Page 4, After slide # 011 canoedk (canoe deck)
Page 5, After slide # 014 maui dis 7
Page 6, After slide # 018 Nainoa's Star Compass
Page 7, After slide # 019 "shaka"
Page 7, After slide # 020 20 degree
Page 7, After slide # 021 90 degree
Page 8, After slide # 022 0 degree (this slide is listed on page 7)
Page 10, After slide # 025 arrival
Page 12, After slide # 035 mars

The last slide, numbered #039 should sit in tray position 48. There should be 9 blank slides or spaces in your tray. They are located at:

Carousel tray positions- 12, 16, 21, 23, 25, 27, 29, 33 and 44.

Soundtrack

The full soundtrack on CD is included with the show kit. Use the "Pause" button during the live segments of the show. If you get lost, search to the chapter noted in the script to find your place.

Presentation Suggestions

All narration recorded on the CD is presented in quotes in the script. All other text describe suggested lines you will deliver during the show. These lines do not necessarily require memorization. In fact, we encourage you to develop your own presentation style that covers all the necessary information. In our beta testing, we found that the show can be done in as short a time as 20 minutes or take as long as an hour. Timing depends on who is doing the show.

Use the "pause" button on your CD player to stop the audio to do the live sections. Each section of the script is recorded as a chapter. If you get lost on the CD, simply refer to the script and scroll to the right chapter and press "play".

Thank you
