Join Bishop Museum Press and Costco Waipio in
celebration of the new release, *Pulelehua and Māmaki!*

IN THE LUSH HAWAIIAN RAINFOREST, beneath a canopy of 'ōhi'a trees, native flora and fauna live in harmony. As her time draws near, lovely Pulelehua discovers the māmaki that sheltered her as a child and leaves a newborn egg on one of its leaves. Follow along as the wise māmaki nurtures Ke Li'i through his stages of life, from a tiny black caterpillar to a magnificent Kamehameha Butterfly.

Beautifully written and illustrated, *Pulelehua and Māmaki* shows how closely the elements of the Hawaiian ecosystem are intertwined and how we can help preserve these natural wonders.
